DHA Peshawar is looking for experienced and qualified individuals for the following posts on contract basis. Desirous individuals should send their CVs through email at the address given at the end by **22 November 2026**.

Position	BPS	Qualification	Experience / Job Description

Senior Engineer (Electrical)	16	Bachelor's or Master's in Electrical Engineering or Related Field.	**Experience**
			• Minimum 5–8 years in relevant field.
			Job Purpose
			To supervise and technically manage electrical works, ensuring proper planning, installation, testing and commissioning in accordance with approved designs, specifications, quality standards, safety requirements and project timelines.
			Key Responsibilities:
			• **Electrical Works & Supervision**
			  • Supervise installation, testing and commissioning of electrical infrastructure.
			  • Supervise Site Engineers, Junior Engineers and contractors in execution of electrical works.
			  • Ensure electrical works are executed in accordance with approved designs, specifications and project schedules.
			• **Technical & Quality Control**
			  • Review electrical systems and conduct risk assessments to ensure compliance with applicable standards and safety requirements.
			  • Lead site inspections and testing of electrical installations to verify quality, safety and performance.
			  • Provide technical guidance on electrical issues and recommend appropriate solutions.
			• **Planning, Procurement & Cost Control**
			  • Develop and monitor electrical work schedules in coordination with overall project timelines.
			  • Oversee procurement of electrical materials and equipment, ensuring timely availability and compliance with specifications.
			  • Monitor costs of electrical works and identify opportunities for cost optimization.
			• **Coordination & Reporting**
			  • Coordinate with other engineering disciplines to ensure proper integration of electrical systems with other project components.
			  • Prepare and submit technical reports and progress updates to the Project Director / AD Electrical and relevant stakeholders.
			• **KEY COMPETENCIES**
			  • Strong knowledge of electrical engineering, installation, testing and commissioning.
			  • Ability to supervise technical staff, contractors and electrical works.
			  • Knowledge of electrical standards, safety requirements and quality control.
			  • Project planning, cost monitoring and problem-solving skills.
			  • Ability to interpret technical drawings and specifications.
			  • Effective coordination and technical reporting skills.

Note: Only short-listed candidates will be called for test / interview. No TA/DA will be admissible for test / interview.
